Recommendation: Carson Bembridge

To Whom It May Concern:

I am CEO, and Principal Analyst for ACG Research, a telecom analyst and economic firm and I have been a volunteer baseball coach at Perry High School for the last nine years. I'm writing this letter of recommendation on behalf of Carson Bembridge. I have had the privilege of working with Carson for the past three years as his catching coach.

As an athlete, Carson brings energy, enthusiasm, creativity and commitment to all his catching activities. Carson is highly intelligent and possesses excellent analytical skills as underscored by his relationship with younger players, who routinely seek out his expertise on baseball catching strategy.

Carson's natural athleticism is very obvious, but his instincts and his ability to learn and absorb mass amounts of information in a short period of time is what is most impressive to me. He quickly became the best receiver during our catching clinics which includes all levels Pro, College, High School and Elementary players. Additionally, he is a leader in understanding catching strategies. Carson's instincts and ability to be one step ahead of his teammates and opposition are truly amazing to me. It is very unusual to be able to have an intense desire to win and succeed on the field, and also have the ability to put the game behind you when it is over and move on to tackle the next task.

Please accept this letter of recommendation about my personal views of Carson as a player and as a person. His commitment to his family, to his team, and to his friends is unwavering. It has been an honor to be associated with Carson and I cannot wait to see what he accomplishes in the future on and off the field.

Sincerely,

*Ray Mota*
